

Maritime Security

Update on ISPS – Workshop

Content

The workshop provides updated information and knowledge about the latest amendments to the STCW Convention, related to security familiarization and training of shipboard personnel to maintain the security of the ship and highlights the obligations of companies for the implementation of SOLAS V/19-1 Long Range Identification and Tracking requirements, taking into account various guidelines and recommendations. Developments and tendencies based on GL statistics of ISPS audit and port state control results are discussed. Methods for the implementation of effective security measures with focus on piracy and stowaways are exemplified on the basis of lessons learnt and by means of a case study.

Course objective

Gaining updated knowledge of SOLAS / STCW security requirements and developments, learning about methods of pirate attacks and stowaway boarding as well as measures for prevention and deterrence

Emphasis

- Requirements for security familiarization and training of shipboard personnel
- Certification of Long Range Identification and Tracking (LRIT) Systems
- Best Practice to counter piracy and stowaways
