**Konu** : AB İthalat Kontrol Sistemi (ICS2) ne ilişkin Ortak  
Bildiri Hk.

Sirküler No: 367

Sayın Üyemiz,

Gemi Brokerleri ve Acenteleri Ulusal Birlikleri Federasyonu (FONASBA) tarafından 16 Mayıs 2024 tarihinde Odamıza gönderilen ekte sunulan yazda;

Avrupa Topluluğu Gemi Brokerleri ve Acenteleri Birliği'nin(ECASBA) de dahil olduğu nakliyeci ve gemi operatörlerini temsil eden küresel ve Avrupa meslek birlikleri tarafından deniz ve demiryolu aracılığıyla malların taşınmasında yer alan sektörlerde yönelik Haziran 2024'de Avrupa Birliği'nde uygulamaya girmesi öngörülen yeni İthalat Kontrol Sistemi (ICS2) hakkında ortak bir bildiri yayımılandığı belirtilmektedir.

FONASBA ortak bildiri ile AB tarafından uygulanacak ICS2'nin denizcilik sektörü açısından etkilerine yer verildiğini belirtmektedir. Bu kapsamında; yeni İthalat Kontrol Sistemi 2'nin (ICS2), AB gümrük yetkilileri tarafından uygulamaya konulan bir emniyet ve güvenlik rejimi olduğu ve ithal edilen malların AB sınırına ulaşmadan önce belirli ayrıntıların verilmesini zorunlu kıldığı ifade edilmektedir. İlk olarak 2023 yılında hava kargo taşımacılığına uygulanan ICS2 gerekliliklerinin Haziran 2024 tarihi itibarıyle deniz taşımaclığını; 2025'te ise karayolu ve demiryolu taşımaclığını da kapsayacağı belirtilmekte olup yeni gereklilikler arasında 6 haneli gümrük tarife kodları (HS codes) ile kabul edilebilir ürün tanımları ve ayrıntılı alıcı ve satıcı bilgilerinin sağlanmasıının yer aldığı ifade edilmektedir.

FONASBA, ICS2'nin uygulamaya girmesi ile malların Avrupa Gümrük Bölgesi'ne giriş ve çıkışının önemli ölçüde etkileneceğini belirterek farklı tedarik zinciri birimlerinin çeşitli zamanlarda ve farklı şekillerde düzenleneceğine de dikkat çekmektedir. Bu kapsamında; yeni düzenlemelere uyumak üzere farkındalık ve hazırlık çalışmalarının önem teşkil edeceğinin ifade edilmekte olup, kapsamlı veri gerekliliklerinin güvenliği artırmayı amaçladığı ancak aynı zamanda gecikmeler, kesintiler ve uyumsuzluklar nedeniyle olası para cezaları riskini de beraberinde getirdiğine dikkat çekilmektedir.

AB yeni İthalat Kontrol Sistemi'ne(ICS2) ilişkin ECASBA'nın da imzacıları arasında olduğu ortak bildiri metni ekte yer almaktadır.

Bilgilerinize arz/rica ederim.

Saygılarımla,

*e-imza*

## LOGISTICS TRADE BODIES UNITE IN CALLS FOR INDUSTRY ACTION ON NEW EU IMPORT DECLARATIONS

Global and European trade associations representing shippers, forwarders and vessel operators have issued an urgent alert to all businesses involved in the movement of goods into or via the European Union, Norway, Switzerland or Northern Ireland, by sea, road or rail to be ready for the new Import Control System (ICS2) that will start to be introduced from June this year.

The World Shipping Council, the International Federation of Freight Forwarders Associations, the Global Shippers Forum, the European Community Association of Ship Brokers and Agents, the European Community Shipowners' Associations, the European Associations for Forwarding, Transport, Logistics and Customs Services, the European Shippers Council and the International Road Transport Union, have together stressed the importance of the new controls and their impact on the movement of goods into or via the European Customs Territory by sea, road and rail.

Awareness of the implementation of the new requirements is key, says the group, as is understanding how ICS2 will affect different entities in the supply chain at different times and in distinct ways.

ICS2 is an enhanced safety and security regime introduced jointly by Customs authorities in the EU that requires specific details of imported goods to be provided before loading or before arrival at the EU border. The requirements were introduced for air cargo during 2023 and will be extended to sea transport from June 2024 and for imports arriving by road or rail in 2025. The extensive new data requirements include 6-digit HS codes for each item in a consignment, an 'acceptable description' and detailed buyer and seller information.

The trade bodies each representing different parties in the supply chain have urged businesses involved in moving goods into the EU to begin their preparations for the extension of ICS2 now and to seek further information on how they will be affected. The [European Commission's website](#) is the best place to start.

Failure to comply with ICS2 requirements will result in delays and disruptions to exports to the EU from the rest of the world and to goods imported into the EU, and potentially, in accordance with Member State practice, fines and penalties for persons liable for submitting the Safety and Security data to ICS2.

Cooperative working between the different parties involved in such shipments is crucial to keep goods moving, as symbolised by the joint call to action by the eight trade bodies.

#### **- About CLECATE**

CLECATE represents the interests of 22 national organisations of European freight forwarders and customs agents. Multinational, medium and small freight forwarders and Customs agents are all part of CLECATE's structures, thus making it the most representative structure of its kind in Europe.

#### **- About ECASBA**

ECASBA is the recognised consultative body for ship agents and ship brokers in EU Member States. It protects and promotes those professions through contact with the European Commission and other European Union institutions, both directly and in collaboration with other European maritime sector organisations. ECASBA addresses any issues of European maritime policy that may affect its members. ECASBA is a member of the Trade Contact Group on customs issues, the expert subgroup of the HighLevel Steering Group on the European Maritime Single Window environment and the Carrier Working Group on electronic traveller registration and authorisation hosted by EU-LISA.
